

T-LEVELS

<https://www.tlevels.gov.uk/students>

T Levels are a 2-year qualification designed to give you a head start towards the career you want. The government has developed T Levels to deliver world-class technical education and give you a new choice after GCSEs.

SUPPORTED BY BUSINESS

T Levels were designed with leading businesses and are now supported by employers of all sizes to give students the workplace skills they need to succeed.

Hundreds of employers – including Lloyds Banking Group, Nestlé, Yorkshire Water, Persimmon Homes and NHS Trusts across England – have hosted T Level students on industry placements.

Many employers retain T Level students on completion of their course and support progression within their business onto an apprenticeship or into another role.

EQUIVALENT TO 3 A LEVELS

T Levels are an alternative to A levels, apprenticeships and other 16 to 19 courses. Equivalent in size to 3 A levels, a T Level focuses on vocational skills and can help students into skilled employment, higher study or apprenticeships.

A 45-DAY INDUSTRY PLACEMENT

Each T Level includes an in-depth industry placement that lasts at least 45 days. Students get valuable experience in the workplace; employers get early sight of the new talent in their industry.

80% CLASSROOM, 20% WORK

T Level students spend 80% of the course in their learning environment, gaining the skills that employers need. The other 20% is a meaningful industry placement, where they put these skills into action.
